

Irrigation Application

Applications can be emailed to the permits department at permits@cleveland.texas.gov

Construction plans for an irrigation system should include detailed and clear information to ensure the system is installed correctly, operates efficiently, and complies with local regulations or codes. Your construction plans should include, but are not limited to, Site Plan and Layout Drawing, showing property boundaries, scale and orientation, existing features, zones, piping layout, sprinkler head, valves, timer location etc. Also to include water source, Hydraulic Calculations, Material List and Specifications, Control System Plan, Installation Notes, Compliance and Regulatory Info.

Backflow reports must be posted on site and reported to BSI at bsionline.com.
